Subject: Allied Paper Landfill community involvement

Becky,

I confirmed today with Rick that we should finalize the Allied Paper Landfill FS and present it to the public, which I told him is scheduled for August 1, 2013. Rick emphasized that without delay we should be executing our community involvement activities and we should conduct some sort of community outreach before the August 1 release of the FS. Can we put a specific plan together for some sort of outreach in July? Thanks.
